

# My Karuah Photography Project

## "My Karuah" photography Project

"My Karuah" presented a fantastic opportunity for the children in the Karuah community to showcase what is special to them about the community and town they live in. Two local photographers supported the project and the children were able to participate in workshops on how to use the cameras and take a great picture. They then went about capturing what is important to them. And the results were amazing — there is some photography talent emerging in Karuah!

The project has been funded by Port Stephens Council Cultural Funds Grant, and has been supported by Karuah Public School, Karuah Strong, Early Links, Port Stephens Community Transport, and The Smith Family. Special thanks goes to Paul Mulvaney and Jack Drake and their families for sharing their talent and support.
