## E1 Glossary

**1% AEP flood event** is the design flood based on statistical analysis of flood and rainfall data that has a 1% probability of being equalled or exceeded within any year.

**1<sup>st</sup>, 2<sup>nd</sup> & 3<sup>rd</sup> order water courses** means a watercourse order as classified under the Strahler System of ordering watercourses. They can be determined by the width of the Core Riparian Zone (**CRZ**) as follows:

Water course description	CRZ width
Any first order watercourse where there is a defined channel where water flows intermittently	10m
Any permanently flowing first order watercourse or any second order watercourse where there is a defined channel where water flows intermittently or permanently	20m
Any third order or greater watercourse and where there is a defined channel where water flows intermittently or permanently. Includes estuaries, <b>wetland</b> and any parts of rivers influenced by tidal waters	20-40m

**Aboriginal Heritage Impact Permit (AHIP)** means the statutory instrument that the NSW Office of Environment and Heritage issues under section 90 of the *National Parks and Wildlife Act 1974* to manage harm or potential harm to Aboriginal objects and places

**arborist report** means a technical report prepared by a **qualified arborist** that adequately assesses the health of a tree or other vegetation

**access audit** means an audit to establish how well a building performs in relation to access and ease of use by a wide range of potential users, including people with physical mobility and sensory impairments

**access boundary** means the boundary from which formal access to the site is achieved

**Acid Sulfate Soils (ASS)** means naturally occurring sediments and soils containing iron sulfides (principally pyrite) and their precursors or oxidation products, whose exposure to oxygen leads to the generation of sulfuric acid (for example, by drainage or excavation)

**Note:** **acid sulfate soils** has the same meaning under the **Local Environmental Plan**

**acid sulfate soil management plan** means a management plan prepared in accordance with the **NSW ASS Manual**

**acoustic report** means a report carried out to detail the noise or vibration intrusion related to aircraft, railway, restaurants, childcare centres, industrial buildings and the like

**active street frontage** means a building for which all premises on the ground floor:

- a. are used for the purposes of **business premises** or **retail premises** if the premises face the street, and
- b. have direct pedestrian access from the street.

**adaptable finished floor level** is the **1% AEP flood event** level plus 0.5m at 50 years from determination date.

**adversely impact** means a negative effect that goes against desired conditions

**air pollution** means the emission into the air of any air impurity.

**Note:** **air pollution** has the same meaning as in the *Protection of Environment Operations Act 1997*

**air quality impact assessment** means a report that identifies and measures the potential for air quality impacts

**Aircraft Noise Planning Area (ANPA)** means the area of land subject to aircraft noise related **development** controls. It comprises all properties that are wholly or partly within the **ANEF 20** contour on 'relevant **ANEF** maps' and includes land that is within **ANEF** contours of 20 and greater.

**Note:** **ANPA** is a composite of the 2012 **ANEF** and the 2025 **ANEF**.

**ancillary structure** means for the purpose of this instrument, **development** that is incidental to an existing use being lawfully carried out on the land and includes a **swimming pool**, shed, fencing, retaining wall, shipping container or the like.

**Annual Exceedance Probability (AEP)** means the chance of a flood of a given or larger size occurring in any one year (for example, the **1% AEP flood event** has a 1% chance of occurring every year; the 5% AEP flood event has a 5% chance of occurring every year).

**area free of risk from flooding** means land above the **probable maximum flood (PMF)**.

**arterial road** means an arterial road as defined by the current version of the Port Stephens Council 'Infrastructure Specification – Design'

**assessment of significance** means an analysis of the impacts that a proposed **development** is likely to have on threatened species, populations, ecological communities or habitat.

**Asset Protection Zone (APZ)** means a buffer zone between a bush fire hazard and buildings, which is managed progressively to minimise fuel loads and reduce potential radiant heat levels, flame, ember and smoke attack

**Note:** **asset protection zone** has the same meaning as in Planning for Bush Fire Protection

**Australian Height Datum (AHD)** means the setting of the mean sea level as zero elevation. Mean sea level was determined from observations recorded by 30 tide gauges around the Australian continent for the period 1966-1968

**Australian rainfall and runoff** means the national guideline document for the estimation of design flood characteristics in Australia

**average building line** for the purposes of determining the front setback, means the average distance of the setbacks to the nearest 2 buildings having a boundary with the same parallel road and located within 40 metres of the lot on which the **dwelling house** is erected

**battle-axe lot** means a lot of land behind another, with access from the street through a narrow drive known as a handle

**bird strike zone** means land identified as bird strike Group A, Group B or Group C by Figure BN (p. B-45)

**biodiversity offsets** means measures that benefit biodiversity by compensating for the adverse impacts elsewhere of an action, such as clearing for **development**

**bio-metric terrestrial biodiversity assessment tool** means a tool used to assess the impacts on terrestrial biodiversity of applications for clearing and applications for incentives in **native vegetation** under the *Native Vegetation Act 2003*

**Building Code of Australia (BCA)** means volumes one and two of the National Construction Code.

**buffer** means a distinct separation between two **developments** or land-uses that require separation

**building height** (or height of building) means:

- a. in relation to the height of a building in metres—the vertical distance from ground level (existing) to the highest point of the building, or
- b. in relation to the **RL** of a building—the vertical distance from the **Australian Height Datum** to the highest point of the building,

including plant and lift overruns, but excluding communication devices, antennae, satellite dishes, masts, flagpoles, chimneys, flues and the like.

**Note: building height** (or height of building) has the same meaning as in the **Local Environmental Plan**

**building line** or **setback** means the horizontal distance between the property boundary and other stated boundary and a building wall or the outside face of a balcony, deck or the like, or the supporting posts or a carport or veranda roof, whichever is the shortest.

**Note: building line** or **setback** has the same meaning as in the **Local Environmental Plan**

**bulk earthworks plan** means a plan prepared that details the process of **cut** and **fill**, including proposed cutting and filling and any proposed loads or the type and source of landfill being used

**bulky goods premises** means a building or place the principal purpose of which is the sale, hire or display of bulky goods, being goods that are of such size or weight as to require:

- a. a large area for handling, display or storage, and
- b. direct vehicular access to the site of the building or place by members of the **public** for the purpose of loading or unloading such goods into or from their vehicles after purchase or hire,

and including goods such as floor and window supplies, furniture, household electrical goods, equestrian supplies and **swimming pools**, but does not include a building or place used for the sale of foodstuffs or clothing unless their sale is ancillary to the sale or hire or display of bulky goods.

**Note: bulky goods premises** has the same meaning as in the **Local Environmental Plan**

**bush fire prone land map** for an area means a map for the area certified as referred to in section 10.3(2) of the **EP&A Act**

**bush fire prone land** means land recorded for the time being as **bush fire prone land** on **bush fire prone land map**

**bush fire protection measure** means any one of the following measures as identified by the Rural Fire Service:

- a. **Asset Protection Zones** (fuel reduced areas)
- b. Access arrangements
- c. Building construction and design
- d. Water supply and utilities
- e. Landscaping
- f. Emergency Management Arrangements

**business premises** means a building or place at or on which:

- a. an occupation, profession or trade (other than an **industry**) is carried on for the provision of services directly to members of the **public** on a regular basis, or
- b. a service is provided directly to members of the **public** on a regular basis,

and includes a funeral home and, without limitation, premises such as banks, post offices, hairdressers, dry cleaners, travel agencies, internet access facilities, betting agencies and the like, but does not include an entertainment facility, **home business**, home occupation, home occupation (sex services), medical centre, **restricted premises**, **sex services premises** or veterinary hospital.

**Note:** **business premises** has the same meaning as in the **Local Environmental Plan**

**capital investment value** of a **development** or project includes all costs necessary to establish and operate the project, including the design and construction of buildings, structures, associated infrastructure and fixed or mobile plant and equipment, other than the following costs:

- a. amounts payable, or the cost of land dedicated or any other benefit provided, under a condition imposed under Division 7.1 or 7.2 of the **EP&A Act** or a **planning agreement** under that Division,
- b. costs relating to any part of the development or project that is the subject of a separate **development consent** or project approval,
- c. land costs (including any costs of marketing and selling land),
- d. GST (within the meaning of *A New Tax System (Goods and Services Tax) Act 1999* of the Commonwealth).

**Note:** **capital investment value** has the same meaning as in the *Environmental Planning and Assessment Regulation 2000*

**cantilevered** means a projecting structure, such as a beam, that is supported at one end and carries a load at the other end along its length

**cellular system** means systems that can be used to control and manage rainwater surface runoff as either a soak away or a storage tank. The modular/honeycomb nature of **cellular systems** means that they can usually be tailored to suit the specific requirements of any site

**centrality** means central to the geographic population or in proximity to a neighbourhood centre. An example would be where a **collector road** crosses another **collector road** or opposite a neighbourhood town centre.

**circumference breast height** means the girth of the supporting stem of a tree at a height 1m above the existing ground level measured at the trunk centre, and so as to contain the outermost projection of any flanges or buttresses

**Crime Prevention through Environmental Design (CPTED)** means a multi-disciplinary approach to deterring criminal behaviour through environmental design

**collector road** means a collector road as defined by the current version of the Port Stephens Council 'Infrastructure Specification Design'

**commercial premises** means any of the following:

- a. **Business premises**
- b. Office premises
- c. **Retail premises**

**Note:** **commercial premises** has the same meaning as in the **Local Environmental Plan**

**compensatory planting** means the planting of a tree to mitigate for the removal of a tree. Compensatory planting must be conducted in accordance with the Port Stephens Council Technical Tree Specification

**construction certificate** means a certificate to the effect that building work completed in accordance with specified plans and specifications or standards will comply with the requirements of the regulations

**Note:** **construction certificate** has the same meaning as in the **EP&A Act**

**construction management plan** means a management plan that details how construction will be managed. The plan takes into account relevant safety concerns, including how the works will interfere with the **public domain**

**construction works** means the process of building a structure or assembling infrastructure

**contaminated land** means land in, on or under which any substance at a concentration above the concentration at which the substance is normally present in, on or under (respectively) land in the same locality, being a presence that presents a risk of harm to human health or any other aspect of the environment.

**Note:** **contaminated land** has the same meaning as in Schedule 6 of the **EP&A Act**

**controlled activity** means:

- a. the erection of a building or the carrying out of a work (within the meaning of the **EP&A Act**), or
- b. the removal of material (whether or not extractive material) or vegetation from land, whether by way of excavation or otherwise, or
- c. the deposition of material (whether or not extractive material) on land, whether by way of landfill operations or otherwise, or
- d. the carrying out of any other activity that affects the quantity or flow of water in a water source.

**Note:** **controlled activity** has the same meaning as in the **Water Management Act 2000**

**critical mass** means the number of users of **public open space** to sustain its vitality.

**cut** means the removal of soil or rock, whether moved to another part of the same site or to another site, but does not include garden landscaping that does not significantly alter the shape, natural form or drainage of land

**dB(A)** means an expression of the relative loudness of sounds in air as perceived by the human ear.

**desire lines** means a path that represents the shortest and most easiest navigated route between an origin and destination

**development application** means an application lodged with Council to seek consent for **development** that requires **development consent** under the **Local Environmental Plan**

**development consent** means consent under Part 4 of the **EP&A Act** to carry out development and includes, unless expressly excluded, a complying development certificate

**Note: development consent** has the same meaning as in the **EP&A Act**

**development** means any of the following:

- a. the use of land,
- b. the **subdivision** of land,
- c. the erection of a building,
- d. the carrying out of a work,
- e. the demolition of a building or work,
- f. any other act, matter or thing that may be controlled by an **environmental planning instrument**,

**Note: development** has the same meaning as in the **EP&A Act**

**development type** means the definition given to a proposed land-use under the Dictionary of the **Local Environmental Plan**

**district park** means a park that can support a greater variety of functions and facilities than a **local park** to meet different community needs. Large groups should be able to gather for an extended period of time. A **district park** consists of the following attributes:

- Provides advanced evergreen shade trees;
- Provides multiple entry and exit points;
- Creates links between public and private areas;
- Integrates remnant vegetation;
- Formal car parking and pathways;
- Accessible amenities;
- Park furniture and sheltered picnic facilities (e.g. electric barbeques);
- **Signage**; and
- High quality play equipment.

**drainage reserve** means a parcel of land set aside for drainage purposes. **Drainage reserves** usually contain either a drainage basin or an open drain. A **drainage reserve** is a type of **overland flow path**

**drinking water catchment** means the Drinking Water Catchment identified on the Drinking Water Catchment Map in the **Local Environmental Plan**

**driveway** means a type of private road for local access to one or a small group of structures, and is owned and maintained by an individual or group

**driveway cross-fall** means the point where a **driveway** crosses a pedestrian pathway, which is then understood to be the boundary of the pedestrian environment

**dual occupancy** means a dual occupancy (attached) or dual occupancy (detached). **Dual occupancies** are type of **residential accommodation**.

**Note:** *dual occupancy* has the same meaning as in the *Local Environmental Plan*

*dwelling* means a room or suite of rooms occupied or used or so constructed or adapted as to be capable of being occupied or used as a separate domicile.

**Note:** *dwelling* has the same meaning as in the *Local Environmental Plan*

*dwelling house* means a building containing only one dwelling.

**Note:** *dwelling house* has the same meaning as in the *Local Environmental Plan*

*earthworks* means the *cut* or *filling* of land.

**Note:** *earthworks* has the same meaning as in the *Local Environmental Plan*

*easement* means an individual or a company, known as a grantee has the right to use land for a particular purpose. An *easement* can restrict how the owner of the land, known as the grantor, can use their property. Common *easements* include:

- pathways and walkways
- for the supply of utilities
- access roads
- the right to park a vehicle

*ecologically sustainable development* means using, conserving and enhancing the community's resources so that ecological processes, on which life depends, are maintained, and the total quality of life, now and in the future, can be increased

*environmental significance* means threatened species and communities, listed migratory species, wildlife corridors, *wetlands* or *riparian corridors*

*Environmental Planning Instrument (EPI)* means an *environmental planning instrument* (including a *SEPP* or *LEP* but not including a *DCP*) made, or taken to have been made under Part 3 and in force.

**Note:** *environmental planning instrument* has the same meaning as in the *EP&A Act*

*environmentally sensitive area* means an area deemed to have significant environmental value by Council, including such areas as terrestrial biodiversity, *riparian corridors* or wildlife corridors

*essential services* means reference to the essential services listed in the relevant clause of the *Local Environmental Plan*, including; the supply of water, the supply of electricity, the disposal and management of sewage and suitable vehicular access

*undesirable species* means the following:

- Tree of Heaven – *Alionthus altissima*
- Camphor Laurel – *Cinnoamomum camphora*
- Cotoneaster - *Cotoneaster spp.*
- Coral Tree – *Erythrina spp.*
- Rubber Tree – *Fiscus elastica*
- Privet – *Ligustrum spp.*
- Oleander – *Nerium oleander*
- Slash pine – *Pinus elliotii*

- Radiata pine – *Pinus radiata*
- Willow – *Salix babylonica*, *Salix matsudana tortuosa* and *Salix spp*
- Umbrella Trees – *Schefflera spp*
- Cocos Palm – *Syagrus romanzonffianum*
- Rhus Tree – *Toxicodendron succedameum*

**exempt development** means **development** that is specified in an **exempt development** code that meets the standards specified for that **development** and that complies with the requirements of **exempt development** under State Environmental Planning Policy (Exempt and Complying Development Codes) 2008

**facadism** means an architectural and construction practice where the façade of a building was designed or constructed separately to the rest of a building. More often it refers to the practice where only the face of a building is preserved with new buildings erected behind or around it

**false windows** means windows that do not link a **habitable room** and therefore do not provide passive surveillance

**farm building** means a structure the use of which is ancillary to an agricultural use of the landholding on which it is situated and includes a hay shed, stock holding yard, machinery shed, shearing shed, silo, storage tank, outbuilding or the like, but does not include a dwelling.

**fill** means the depositing of soil, rock or other similar extractive material obtained from the same or another site, but does not include:

- a. the depositing of topsoil or feature rock imported to the site that is intended for use in garden landscaping, turf or garden bed establishment or top dressing of lawns and that does not significantly alter the shape, natural form or drainage of the land, or
- b. the use of land as a waste disposal facility.

**Note:** **fill** has the same meaning as in the **Local Environmental Plan**

**finished access level** is the completed level of the driveway following construction, from the building envelope to the public road.

**Finished Floor Level (FFL)** is the completed floor level of the premises following construction.

**flood certificate** means a Council prepared flood certificate not more than 12 months old.

**flood compatible design** refers to all proposed development on **flood prone land** must be of a flood-resistant design and construction. The design must take into account the hydrostatic actions, hydrodynamic actions, debris actions, wave actions, erosion and scour. Materials used for structural purposes and located below the **flood planning level** must:

- Be capable of resisting damage, deterioration, corrosion or decay;
- Consider the amount of time that the material is likely to be in contact with flood water; and
- Consider the amount of time it will take for the material to dry out.

**Note:** Materials should be consistent with the:

- *Construction of Buildings in Flood Hazard Areas – Standard*, Australian Building Codes Board; and

- *Reducing Vulnerability of Buildings to Flood Damage: Guidance on Building in Flood Prone Areas*, Hawkesbury-Nepean Floodplain Management Steering Committee, 2006.

**flood fringe area** is the remaining land in the **flood planning area** after the **floodway area** and **flood storage area** have been defined.

**flood hazard** means a source of potential harm or a situation with a potential to cause loss.

**flood hazard maps** includes the visual representation of the flood hazard and hydraulic categories referenced in Council's **Floodplain Risk Management Policy**. The maps are available on Council's website.

**flood immunity** refers to a building or structure that will not be directly affected by flooding during a flood event.

**flood planning area** is the land inside the extent of the **flood planning level**.

**Flood Planning Level (FPL)** is the level of the **1% AEP flood event** in the year 2100 plus 0.5 metre freeboard, except for overland flooding areas where a freeboard of 0.3 metre is applied. The area of land below the **FPL** is subject to flood-related development controls.

**flood planning horizon** refers to the length of time into the future for the risk to be managed. In floodplain risk management this includes consideration of climate change impacts and the planning horizon is typically 2100.

**floodplain** means an area of flat land adjacent to a river, creek, lake, estuary, dam or artificial channel which is subject to flooding during high rainfall periods

**flood prone land** refers to land that is likely to be inundated by the **PMF**.

**flood prone land subject to further investigation** refers to the area of land susceptible to flooding where a comprehensive technical investigation of flood behaviour (to define the variation over time of flood levels, extent, velocity, flood hazard and the flood planning level up to and including the **PMF** has not yet been carried out. Land designated as **flood prone land subject to further investigation** on Council's **flood hazard maps** will be considered as **High Hazard Flood Storage** (unless satisfactory evidence is provided to demonstrate otherwise).

**Floodplain Risk Management Plan** is developed from the **Floodplain Risk Management Study** and details how **flood prone land** within the study areas is to be managed. The primary aim of the Plan is to reduce the **flood hazard** and risk to people and property in the existing community and to ensure future development is controlled in a manner consistent with **flood hazard** now and in the future. The Plan consists of prioritised and costed measures for implementation.

**Floodplain Risk Management Policy** refers to Council's adopted policy outlining the management of risk associated with flooding on lands across the Local Government Area in accordance with State Government's Flood Prone Land Policy and **NSW Floodplain Development Manual 2005**.

**Floodplain Risk Management Study** is a study of the risks across the floodplain and evaluates management options for both existing and proposed development. A floodplain risk management study needs to be developed in accordance with the principles and guidelines contained in the NSW Floodplain Management Manual.

**flood refuge** means an approved and well-designed mound to provide temporary refuge for humans and livestock during flooding

**floodway** refers to land that is a pathway taken by major discharges of floodwaters, the partial obstruction of which would cause a significant redistribution of floodwaters, or a significant increase in flood levels. Floodways are often aligned with natural channels, are usually characterised by deep and relatively fast flowing water, and have major damage potential.

**flood study** is a comprehensive technical investigation of flood behaviour that defines the variation over time of flood levels, extent and velocity for flood events of various severities up to and including the **PMF** event. It covers the entire floodplain catchment, with particular emphasis on the area under consideration. The **flood study** will:

- i. Be certified by a chartered Professional Engineer who is recognised under the Engineers Australia's National Engineering Register (NER), who has experience in hydraulics and floodplain management;
- ii. Be a comprehensive document that includes numerical flood modelling of the proposed development area;
- iii. Ensure that the extent of the study adequately assesses all flooding characteristics and impacts of the development in the area;
- iv. Be consistent with any existing **flood study** or **Floodplain Risk Management Plan** undertaken for Council for the subject site. Where there is deviation from the Council adopted studies, the **flood study** must detail and justify the deviations;
- v. Be consistent with the **NSW Floodplain Development Manual 2005** and the current version of Australian Rainfall and Runoff and determine the existing flooding characteristics and assess the impacts of the proposal, including assessment of design flood events including 10% AEP, 5% AEP, 1% AEP and **PMF** for existing conditions, 2050 and 2100; and
- vi. Assess cumulative **flood storage** impacts, flood levels, velocity (including direction), hazard and hydraulic categories.

**flood storage areas** are those parts of the **floodplain** that are important for the temporary storage of floodwaters during the passage of a flood. The loss of storage areas may increase the severity of flood impacts by reducing natural flood attenuation.

**flood volume** refers to the volume of water occupying a site at the peak of a flood event. The 1% AEP **flood volume** is the difference between the peak flood height in the **1% AEP flood event** and the natural surface level.

**floor space ratio** of buildings on a site is the ratio of the **gross floor area** of all buildings within the site to the **site area**

**flora, fauna or conservation strategy** means a **flora, fauna or conservation strategy** that is relevant to the subject site and in turn has identified by Council as relevant (e.g. Port Stephens Council Koala Plan of Management)

**flora and fauna survey** means a survey to identify ecological and biological diversity of the site

**foreshore** means the part between the water and occupied or cultivated land

**freeboard** means the height above the **1% AEP flood event** level. It is used as a safety margin to compensate for uncertainties such as wave action, localised hydraulic behaviour (e.g. flow path blockages caused by natural and urban debris such as trees, 'wheelie' bins, cars, containers) and changes in rainfall patterns and ocean water levels as a result of the changing climate.

**front property line** means the legal boundary of a parcel of land adjoining the primary **road reserve** frontage

**function centre** means a building or place used for the holding of events, functions, conferences and the like, and includes convention centres, exhibition centres and reception centres, but does not include an entertainment facility.

**Note:** **function centre** has the same meaning as in the *Local Environmental Plan*

**greenfield** means a site in a locality which has been previously undeveloped other than for agricultural pursuits

**gross floor area** means the sum of floor area of each floor of a building measured from the internal face of external walls or from the internal face of walls separating the building from any other building, measured at a height of 1.4 metres above the floor and includes:

- a. the area of a **mezzanine**, and
- b. **habitable rooms** in a basement or an attic, and
- c. any shop, auditorium, cinema, and the like, in a basement or attic, but excludes:
  - d. any area for common vertical circulation, such as lifts and stairs, and
  - e. any basement:
    - i. storage, and
    - ii. vehicular access, loading areas, garbage and services, and
  - f. plant rooms, lift towers and other areas used exclusively for mechanical services or ducting, and
  - g. car parking to meet any requirements of the consent authority (including access to that car parking), and
  - h. any space used for the loading or unloading of goods (including access to it), and
  - i. terraces and balconies with outer walls less than 1.4 metres high, and
  - j. voids above a floor at the level of a storey or storey above

**Note:** **gross floor area** has the same meaning as in the *Local Environmental Plan*

**ground level (finished)** means, for any point on a site, the ground surface after completion of any **earthworks** (excluding any excavation for a basement, footings or the like) for which consent has been granted or that is **exempt development**

**groundwater** means the water located beneath the earth's surface in soil pore spaces and in the fractures of rock formations. A unit of rock or an unconsolidated deposit is called an aquifer when it can yield a usable quantity of water

**habitable room** as defined by the *NSW Floodplain Development Manual 2005* and the current Building Code of Australia means:

- a) In a residential situation: a living or working area, such as a lounge room, dining room, rumpus room, kitchen, music room, television room, sewing room, study/ office, playroom, family room, home theatre room, and sunroom, bedroom or workroom.
- b) In an industrial or commercial situation: an area used for offices or to store valuable possessions susceptible to flood damages in the event of a flood.

Note: the **habitable room** definition excludes areas such as a bathroom, laundry, water closet, pantry, walk-in wardrobe, corridor, hallway, lobby, photographic darkroom, clothes-drying room, and other spaces of a specialised nature occupied neither frequently nor for extended periods.

**heritage conservation area** means an area of land of heritage significance:

- a. shown on the Heritage Map as a **heritage conservation area**
- b. the location and nature of which is described in Schedule 5 and includes any **heritage items** situated on or within that area

**Note:** **heritage conservation area** has the same meaning as in the **Local Environmental Plan**

**heritage impact statement** means a statement that conveys what impact or impacts the proposed **development** will have on the item of heritage significance. The statement addresses:

- a. what impact the proposed works will have on that significance
- b. what measures are proposed to mitigate negative impacts
- c. why more sympathetic solutions are not viable
- d. why the item is of heritage significance

**heritage item** means a building, work, place, relic, tree, object or archaeological site the location and nature of which is described in Schedule 5 of the **Local Environmental Plan**

**Note:** **heritage item** has the same meaning as in the **Local Environmental Plan**

**high hazard flood area** is the area of flood which poses a possible danger to personal safety, where the evacuation of trucks would be difficult, where able-bodied adults would have difficulty wading to safety or where there is a potential for significant damage to buildings.

**hollow tree assessment** means an assessment undertaken to uncover the quality and quantity of tree hollows present on a site

**home business** means a business that is carried on in a **dwelling**, or in a building ancillary to a **dwelling**, by one or more permanent residents of the **dwelling** and that does not involve those activities listed under the definition contained in the **Local Environmental Plan**

**Note:** **home business** has the same meaning as in the **Local Environmental Plan**

**home industry** means a **dwelling** (or a building ancillary to a **dwelling**) used by one or more permanent residents of the dwelling to carry out an industrial activity that does not involve those activities listed under the definition contained in the **Local Environmental Plan**

**Note:** **home industry** has the same meaning as in the **Local Environmental Plan**

**impervious surfaces** means a surface within a **development** which does not allow infiltration of water to the underlying ground including roads, parking lots, **driveways**, pathways, buildings and roofs.

**indigenous vegetation** means a species of vegetation, or if it comprises species of vegetation, that existed in the State before European settlement.

**Note:** **indigenous vegetation** has the same meaning as in the **TSC Act**

**industry** means any of the following:

- a. general industry,
- b. heavy industry,
- c. light industry,

but does not include:

- d. rural industry, or
- e. extractive industry, or
- f. mining.

**Note:** *industry* has the same meaning as in the *Local Environmental Plan*

**infill** means the **development** of land by the erection of or addition of a residential building or buildings which does not require the spatial extension of services including public roads, electricity, water or sewerage and is within an existing allotment

**integrated development** means **development** (not being State significant development or complying development) that, in order for it to be carried out, requires **development consent** and the listing approvals under section 4.46 of the **EP&A Act**

**koala habitat** means land identified on the Port Stephens Council Koala Habitat Map as being **preferred koala habitat**, **supplementary koala habitat**, and linking or buffer areas to them

**land application map** means the Land Application Map in the *Local Environmental Plan*

**Note:** *land application map* has the same meaning as in the *Local Environmental Plan*

**land-use types** means the definitions of **development** as listed under the Dictionary of the *Local Environmental Plan*

**landscape plan** means a plan or document outlining the extent, type and location of hard and soft landscape works proposed for a **development**

**Local Environmental Plan** means the local environmental plan(s) applying to the land to which this plan applies

**livestock flood refuge mound** is an artificial mound of land that provides temporary refuge for livestock during flood events.

**local park** means a park that is provided and maintained for local residents comprising open grassed areas suitable for small scale ball play, picnics, unorganised active recreation and consists of the following attributes:

- Provides advanced evergreen shade trees;
- Provides multiple entry and exit points;
- Creates links between public and private areas;
- Integrates remnant vegetation;
- Provides park furniture seating; and
- May also include play equipment and pathways.

**local street** means a local street as defined by the current version of the Port Stephens Council 'Infrastructure Specification – Design'

**local structure plan** means a development control plan under clause 6.3 of the *Local Environmental Plan*

**low hazard flood area** is the area of flood where, should it be necessary, a truck could evacuate people and their possessions or an able-bodied adult would have little difficulty in wading to safety.

**major subdivision** means where new roads are proposed, existing roads or intersections require significant upgrading or **public drainage** is constructed

**merit-based approach** is the means of achieving an objective based on the desired outcome, rather than specific numerical standards

**mezzanine** means an intermediate floor between main floors of a building

**minimal risk flood prone land** refers to land on the floodplain that is above the **FPL**. This means that there are no flood-related development controls that apply to residential development, but critical emergency response and recovery facilities, such as evacuation centres and vulnerable development types, such as aged care and child care facilities, may not be appropriate in this location.

**minimum site area** means the minimum area at site must be in terms of square metres to allow the placement of a **dual occupancy**

**minor subdivision** include strata **subdivisions**, boundary adjustments and Torrens & Community Title **subdivision** where only inter allotment drainage lines and **driveways** are required

**Model for Urban Stormwater Improvement Conceptualisation (MUSIC)** means a toolkit that aids decision-making; **MUSIC** predicts the performance of stormwater quality management systems

**mosquito management technical specification** means the Port Stephens Council Mosquito Management Technical Specification<sup>7</sup> available from the Port Stephens Council website

**mixed use development** means a building or place comprising 2 or more different land uses

**multi dwelling housing** means 3 or more **dwelling**s (whether attached or detached) on one lot of land, each with access at ground level, but does not include a **residential flat building**.

**Note: multi dwelling housing** has the same meaning as in the **Local Environmental Plan**

**multi-functional** means sport fields that are designed with multiple uses in mind, including the provision of an all-weather surface, field markings that can be easily changed and removable goal posts.

**natural ground level** means the most likely surface of the property at the time the lots were created and the roads built

**native vegetation** has the same meaning as in Part 5A of the *Local Land Services Act 2013*

**nest box technical specification** means the Port Stephens Council Nest Box Technical Specification<sup>5</sup> available from the Port Stephens Council website

**nodes** mean focal points, intersections or loci as Kevin Lynch in *The Image of the City*<sup>42</sup>. Examples include train stations, **neighbourhood centres**, bus depots or intersections.

**noise sensitive development** means **development** defined as 'Conditionally acceptable' or 'Unacceptable' in accordance with the Australian Standard 2021-2015

**non-habitable room** means a room not defined as a **habitable room** under this Plan

**non-rural areas** for the purposes of Part B1 – Tree Management means the following land-use zones under the **Local Environmental Plan** and identified by Figure BB:

- RU5 Village
- R1 General Residential
- R2 Low Density Residential
- R3 Medium Density Residential
- R5 Large Lot Residential
- B1 Neighbourhood Centre
- B2 Local Centre
- B3 Commercial Core
- B4 Mixed Use
- B5 Business Development
- B7 Business Park
- IN1 General Industrial
- IN2 Light Industrial
- IN4 Working Waterfront
- SP1 Special Activities
- SP2 Infrastructure
- RE1 Public Recreation
- RE2 Private Recreation
- E2 Environmental Conservation
- E3 Environmental Management
- E4 Environmental Living

**noxious weeds technical specification** means the Port Stephens Council **Noxious Weeds Technical Specification** that is available from the Port Stephens Council website

**noxious weeds** is a plant declared by an order under section 7 of the *Noxious Weeds Act 1993* to be a noxious weed.

**Note:** **noxious weeds** has the same meaning as in the *Noxious Weeds Act 1993*

**NSW ASS Manual** means the Acid Sulfate Soils Manual that is available from the NSW Department of Planning and Environment.

**NSW ASS Assessment Guidelines** means NSW Acid Sulfate Soils Management Advisory Committee. August 1998, 'Acid Sulfate Soils Assessment Guidelines'

**NSW Floodplain Development Manual 2005** refers to the State Government manual relating to the development of flood liable land for the purposes of section 733 of the *Local Government Act 1993*.

**occupation certificate** means a certificate that authorises:

- i. the occupation and use of a new building in accordance with a development consent, or
- ii. a change of building use for an existing building in accordance with a development consent.

**Note:** **occupation certificate** has the same meaning as in the **EP&A Act**

**offensive noise** means noise:

- b. that, by reason of its level, nature, character or quality, or the time at which it is made, or any other circumstances:
  - i. is harmful to (or is likely to be harmful) to a person who is outside the premises from which it is emitted, or
  - ii. interferes unreasonable with (or is likely to interfere unreasonably with) the comfort or repose of a person who is outside the premise from which it is emitted,
- c. that is of a level, nature, character or quality prescribed by the regulations or that is made at a time, or in other circumstances, prescribed by the regulations

**Note:** **offensive noise** has the same meaning as in the *Protection of the Environment Operations Act 1997*

**on-site detention** means a way of ensuring that land-use changes does not cause increased downstream flooding: both in the local drainage system immediately downstream and along the creeks and rivers further downstream. **On-site detention** usually consists of a discharge control pit, storage and collection network.

**on-site refuge** means a convenient access to flood free ground. In general, it is not acceptable to rely on refuge provided by or on other **development** sites. In all cases where on site refuge is provided, it is to be both intrinsically accessible to all people on the site and an integrated part of the **development** (e.g. a second storey with stair access). The route to the refuge is to be fail safe, plainly evident and self-directing.

**on-site infiltration** means a system by which water on the ground surface enters the soil. Infiltration rate in soil science is a measure of the rate at which soil is able to absorb rainfall or irrigation. It is measured in inches per hour or millimetres per hour. The rate decreases as the soil becomes saturated

**on-site sewerage management system** means wastewater systems designed to treat and dispose of effluent on the same property that produces the wastewater. A septic tank and drain field combination is the oldest and most common type

**on-site parking** means parking required under Figure BT: On-Site Parking Requirements (p. B-56).

**on-site refuge** means a convenient access to flood free ground. In general, it is not acceptable to rely on refuge provided by or on other **development** sites. In all cases where on site refuge is provided, it is to be both intrinsically accessible to all people on the site and an integrated part of the **development** (e.g. a second storey with stair access). The route to the refuge is to be fail safe, plainly evident and self-directing.

**on-site waste water level** is the 5% AEP flood event level at 50 years from determination date (**Note:** there is no 0.5m freeboard in this instance).

**open space** means either **private open space** or **public open space**

**operational land** has the same meaning as in the *Local Government Act 1993*

**operation and maintenance plan** means a plan developed to maintain **Water Sensitive Urban Design (WSUD)** measures in line with the Port Stephens Council. NA, 'Guidelines for Preparing a Water Sensitive Urban Design Strategy'

**overland flow** means water that flows down to a water course as opposed to flooding that is water that rises from a water source

**overland flow path** are the areas of inundation by local runoff rather than inundation created by overbank flows discharging from a watercourse.

**permit** means an approval from Council for clearing of trees and/or vegetation in accordance with Clause 10(1) of *State Environmental Planning Policy (Vegetation in Non-Rural Areas) 2017*

**planning agreement** means an agreement made between the proponent and Council under section 7.4 of the *EP&A Act* regarding infrastructure provision

**podium** means a platform used to raise something above its immediate surroundings

**precinct plan** means a plan prepared to address the matters set out in Part 6 (Urban release areas) of the *Local Environmental Plan*

**preferred koala habitat** means all habitat areas identified by the Koala Habitat Atlas as Primary Habitat, Secondary Habitat and Community Based Survey Categories under the Port Stephens Council Comprehensive Koala Plan of Management<sup>10</sup>

**primary use** means the principle reason for which the vehicle is utilised

**privacy screen** means a screen that:

- a. faces the boundary;
- b. is 1.5m high, measured from the floor level;
- c. has no individual opening more than 30mm wide; and
- d. has a total of all openings less than 30 percent of the surface area of the screen.

**private open space** means an area of land external to a building that is used for private outdoor purposes ancillary to the use of the building

**Probable Maximum Flood (PMF)** refers to the largest flood that could conceivably occur at a particular location, usually estimated from probable maximum precipitation, and where applicable, snow melt, coupled with the worst flood producing catchment conditions.

**property vegetation plan** means a voluntary, legally binding agreement between a landholder and the local catchment authority that may be obtained for the following reasons:

- a. Protecting water quality by trapping sediment, nutrients and other contaminants
- b. Providing an interface or **buffer** between **developments** and waterways
- c. Providing bed and bank stability and reducing bank and channel erosion
- d. Providing connectivity between wildlife habitats
- e. Providing diversity of habitat for terrestrial, riparian and aquatic plants and animals
- f. Providing passive recreational uses

**public domain** means land to be considered public property and would generally be understood to be streetscapes or **public open space**

**public drainage** means the drainage system that is under public ownership and is maintained by a public authority

**public infrastructure** means infrastructure, such as sewerage, electrical, water or similar that is under the ownership of a public authority, such as Council.

**public** means a person who accesses a building or premises who are not owners or staff

**public open space** means a social space that is generally open and accessible to people, including **road reserves**, **public domain**, parks and beaches.

**qualified arborist** means:

- a. a person who holds the Australian Qualifications Framework Diploma in Horticulture (Arboriculture) or other qualifications to the satisfaction of Council, and
- b. who has been registered with the Council as a qualified person for the purposes of the preparation of an **arborist report**, or
- c. the Council

**qualified engineer** means a practicing professional with accreditations received from a University recognised by Engineers Australia or equivalent international accreditation

**Reduced Level (RL)** means the height above the **Australian Height Datum**, being the datum surface approximating mean seal level that was adopted by the National Mapping Council of Australia in May 1971

**regional park** means a park that attracts visitors from the wider community of the Port Stephens local government area, providing facilities that are of a broader scale than those of a **local park** or **district park**. They support extended visitation times, are considered to be a destination and consist of the following attributes:

- Provides advanced evergreen shade trees;
- Provides multiple entry and exit points;
- Creates links between public and private areas;
- Integrates remnant vegetation;
- Play equipment and the highest quality supporting infrastructure;
- Easily accessible by main roads and public transport;
- Formal car parking and pathways;
- Accessible amenities;
- Quality landscaping and turf areas;
- Park furniture and sheltered picnic facilities (e.g. electric barbecues);
- Large scale children's playground; and
- Adequate lighting in consideration of **CPTED** principles.

**register of significant trees** means the Port Stephens Council Register of Significant Trees. This Register is available from the Port Stephens Council Website

**residential accommodation** means a building or place used predominately as a place of residence as defined under the **Local Environmental Plan**

**Note: residential accommodation** has the same meaning as in the **Local Environmental Plan**

**residential flat building** means a building containing 3 or more **dwellings**, but does not include an attached dwelling or **multi dwelling housing**.

**Note: residential flat building** has the same meaning as in the **Local Environmental Plan**

**responsible authority** means Council or a state government agency or agent of

**retail premises** means a building or place used for the purpose of selling items by retail, or hiring or displaying items for the purpose of selling them or hiring them out, whether the items are goods or materials (or whether also sold by wholesale) and includes those listed under the **Local Environmental Plan**

**Note:** **retail premises** has the same meaning as in the **Local Environmental Plan**

**restricted premises** means premises that, due to their nature, restrict access to patrons or customers over 18 years of age, and includes sex shops and similar premises, but does not include a pub, hotel or motel accommodation, home occupation (sex services) or **sex services premises**.

**Note:** **restricted premises** has the same meaning as in the **Local Environmental Plan**

**riparian corridor** means a transition zone between the land, also known as the terrestrial environment, and the river or watercourse or aquatic environment. **Riparian corridors** perform a range of important environmental functions.

**road reserve** means a legally described area within which facilities such as roads, footpaths, and associated features may be constructed for public travel

**rural areas** means the following land-use zones under the **Local Environmental Plan**:

- RU1 Primary Production
- RU2 Rural Landscape
- RU3 Forestry

**secondary dwelling** means a self-contained **dwelling** that:

- a. is established in conjunction with another **dwelling** (the principal **dwelling**), and
- b. is on the same lot of land as the principal **dwelling**, and
- c. is located within, or is attached to, or is separate from, the principal **dwelling**

**Note:** **secondary dwelling** has the same meaning as in the **Local Environmental Plan**

**secondary setback** relates to a building situated on a corner lot, faces to two streets and therefore requires two setbacks. The **secondary setback** is provided to the non-primary street, being the street which carries less traffic load.

**section 88B** means **section 88B** of the *Conveyancing Act 1919*

**seniors housing** means a building or place that is:

- a. a residential care facility, or
- b. a hostel within the meaning of clause 12 of State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004, or
- c. a group of self-contained **dwellings**, or
- d. a combination of any of the buildings or places referred to in paragraphs (a)–(c), and that is, or is intended to be, used permanently for:
  - e. seniors or people who have a disability, or
  - f. people who live in the same household with seniors or people who have a disability, or
  - g. staff employed to assist in the administration of the building or place or in the provision of services to persons living in the building or place,

but does not include a hospital.

**Note:** *seniors housing* has the same meaning as in the *Local Environmental Plan*

**sensitive receivers** mean those locations or persons that are vulnerable to a decline in air quality, such as asthmatics, children or the elderly

**servicing strategy** means a strategy that identifies major works in relation to **essential services**.

**sewerage reticulation system** means the system of pipes, sewers and drains that are used to convey sewage from a property to a sewage treatment plant.

**SEPP 44 trees** means those trees of significance listed under the Port Stephens Comprehensive Koala Plan of Management as follows:

- Grey Gum
- Scribbly Gum
- Brown Stringybark
- White Mahogany
- Red Mahogany
- Tallowwood
- Sydney Blue Gum
- Sydney Peppermint
- Blackbutt
- Spotted Gum
- Grey Ironbark
- Narrow-leaved Red Ironbark
- Broad – leaved White Mahogany
- Flooded Gum
- Small – leaved Peppermint
- Red Bloodwood
- Smooth Barked Apple
- Broad – leafed Paperbark
- Swamp she-oak
- Swamp Mahogany
- Parramatta Red Gum
- Forest Red Gum

**sex services premises** mean a brothel, but does not include home occupation (sex services).

**Note:** *sex services premises* has the same meaning as in the *Local Environmental Plan*

**shared path** means a path designed to provide a travel area separate from motorised traffic for bicyclists, pedestrians, skaters, wheelchair users, joggers, and other users

**short-term tourist and visitor accommodation** means a tourist and visitor accommodation where the maximum period for which any person is accommodated is 60 consecutive days in a 12 month period and that does not involve interference with the amenity of the neighbourhood by reason of the emission of noise or traffic generation.

**Note:** *short-term tourist and visitor accommodation* has the same meaning as in clause 7.18 of the *Local Environmental Plan*

**side boundary** means the property boundaries connected to the **front property line**

**signage** means any sign, notice, device, representation or advertisement that advertises or promotes goods, services or events and any structure or vessel that is principally designed for that is used for, the display of **signage**, and includes any of the following:

- a. An advertising structure
- b. A building identification sign
- c. A business identification sign

But does not include a traffic sign or traffic control facilities

**Note:** **signage** has the same meaning as in the *Local Environmental Plan*

**significant effect** means there is likely to be a **significant effect** as determined under section 5A of the *EP&A Act* or **development** is on land which is, or is part of, critical habitat

**significant social impact** means a **development type** that is considered to have a social impact, such as:

- Where the proposed **development** indicates that its impacts will alter the ways in which people, live, work, play, relate to one another, organise to meet their needs, sense of place or community and generally cope as members of society in terms of their values and beliefs or aesthetic values
- Where demographic profiling, in which the impacts are likely to occur, indicate that the proposed **development** is likely to impact on the well-being of individuals or their social groupings
- Where prescribed supply ratios identify an unacceptable level of services, such as the number of schools, hospital beds or housing to meet the needs of the demographic
- Locations that contain cultural heritage values, or where the impacts are likely to occur on places of cultural heritage values and attachments to those places
- Where community and stakeholder groups indicate interest in fairness and community involvement in decision making processes

**site analysis** means the preparatory step developing a **site analysis plan**. The results of this analysis are illustrated by a **site analysis plan** submitted as part of the **SEE**

**site analysis plan** means a plan informed by a **site analysis** and provided as part of a **development application**

**site area** means the area contained within the boundaries of the site

**site-based overland flow report** is a report certified by a chartered Professional Engineer who is recognised under the Engineers Australia's National Engineering Register (NER), who has experience in hydraulics and floodplain management, demonstrating that the development:

- i. Will not result in a material increase in flood level or flood hazard on upstream, downstream or surrounding properties; and
- ii. Will provide acceptable management of flood risk with appropriate development levels to ensure the safety of people.

The site based overland flow report must consider, as a minimum:

- a. existing or created overland flow paths and make due provision in the design of the site stormwater system;
- b. preserving existing overland flow paths as far as practical;
- c. a range of flood events, including the **1% AEP flood event**;
- d. designs to ensure that the maximum overland flow velocity at the **1% AEP flood event** should not exceed 1.5m/s and depths not exceed 250mm;
- e. designs to ensure that the impacts of the proposed development on localised flood hazards are mitigated and surrounding properties (upstream and downstream) are not adversely affected; and
- f. the latest advice from Australian Rainfall and Runoff: A Guide to Flood Estimation.

**social impact assessment** means the processes of analysing, monitoring and managing the intended and unintended social consequences, both positive and negative, of planned interventions – policies, programs, plans and projects- and any social changes processes invoked by those interventions

**solar access** means the amount of the sun's energy available to a building

**Species Impact Statement (SIS)** means a statement referred to in Division 2 of Part 6 and includes an environmental impact statement, prepared under the **EP&A Act** that contains a **species impact statement**

**splay corners** means the corners of a road intersection

**staged development application** has the same meaning as in the **EP&A Act**.

**Statement of Environmental Effects (SEE)** means a document that demonstrates that the environmental impact of a **development**

**structural engineering assessment** means an assessment undertaken of the building by a **qualified engineer**

**Structural Report** is a report certifying the structural stability of the structure. The **Structural Report** is to be prepared by a Chartered Professional Engineer recognised under the Engineers Australia's National Engineering Register (NER) in the area of practice of Structural Engineering. The Report must certify that the proposed structural components can withstand the forces of floodwater up to the **PMF**, including hydrostatic pressure, the hydrodynamic pressure, the impact of debris and buoyancy forces.

**stormwater drainage plan** means a plan and written description in relation to the stormwater management of a site and includes information on:

- catchment boundaries;
- existing surface conditions;
- proposed surface contours;
- proposed building flood or floor levels;
- location and levels of discharge points;
- **overland flow paths** and flood liable areas;
- location of drainage pits and lines;
- location and area of **on-site detention easements**;
- calculations for any proposed stormwater system;
- methods of draining the land;
- water quality measures identified by **Small Scale Stormwater Water Quality Model (SSSQM)** or water quality modelling, such as **MUSIC Modelling**;

- operational plan; and
- maintenance plan.

**Stormwater Quality Improvement Devices (SQIDs)** mean engineering methods that are used to protect the creeks, rivers and beaches that our stormwater drains into. They trap or collect rubbish and pollution that ends up in our stormwater drains. Examples include litter collection cages, trash racks or constructed wetlands

**subdivision** means an area or lot of land being subdivided into smaller lots. **Subdivision** under this Plan is either **minor subdivision** or **major subdivision** as defined under C1.2 of this Plan

**subdivision certificate** means a certificate that authorises the registration of a plan of subdivision under Part 23 of the *Conveyancing Act 1919*.

**Note:** **subdivision certificate** has the same meaning as in the **EP&A Act**

**subdivision works certificate** means a certificate to the effect that subdivision work completed in accordance with specified plans and specifications will comply with the requirements of the regulations.

**Note:** **subdivision works certificate** has the same meaning as in the **EP&A Act**

**surface water** means water on the surface of the planet, such as in a stream, river, lake, **wetland**, or ocean

**super lot** means an area of land created by **subdivision** and intended to be further subdivided into additional lots.

**supplementary koala habitat** means koala habitat that is supplementary to **preferred koala habitat** as defined under the Port Stephens Comprehensive Koala Plan of Management<sup>10</sup>

**swimming pool** means an excavation, structure or vessel:

- that is capable of being filled with water to a depth greater than 300 millimetres, and
- that is solely or principally used, or that is designed, manufactured or adapted to be solely or principally used, for the purpose of swimming, wading, paddling or any other human aquatic activity

and includes a spa pool, but does not include a spa bath, anything that is situated within a bathroom or anything declared by the regulations not to be a **swimming pool** for the purposes of this Act

**Note:** **swimming pool** has the same meaning as in the *Swimming Pools Act 1992*

**traffic generating development** means **development** defined as **traffic generating development** under Schedule 3 of the State Environmental Planning Policy (Infrastructure) 2007

**Traffic Impact Assessment (TIA)** means an assessment to quantify the traffic impacts and associated parking requirements that result from proposed **development**

**tree removal notification** means the Port Stephens Council Tree Removal Form. The Form is available from the Port Stephens Council Website

**tree technical specification** means the Port Stephens Council Tree Technical Specification. The Specification is available from the Port Stephens Council Website

**urban release area** means an area of land identified on the Urban Release Area Map

**Note:** **urban release area** has the same meaning as in the *Local Environmental Plan*

**useable land** means total lot area excluding dams, intermittent and permanent watercourses and open stormwater drains and pits in addition to the relevant **buffer** distances prescribed in the Port Stephens Council Development Assessment Framework for those objects

**useable open space** means a space that is open to the sky and which is for the enhancement of the **development** and the enjoyment of the occupants. It excludes drying areas, garbage collection and handling spaces and any space used for the movement or parking of vehicles

**vegetated riparian zone** means the **vegetated riparian zone** that adjoins the channel comprising the bed and banks of the watercourse of a **riparian corridor**

**vegetation analysis plan** means a map based report intended to assist the property owner or occupier in managing their planned or existing **development** site in order to ensure that existing bushland elements on their land are protected from excessive human induced disturbance

**Vegetation Management Plan (VMP)** means a **Vegetation Management Plan** as described under the Port Stephens Council **vegetation technical specification**<sup>2</sup>

**vegetation management technical specification** means the Port Stephens Council Vegetation Management Technical Specification that is available from the Port Stephens Council website

**vegetation technical specification** means the Port Stephens Council Vegetation Technical Specification. The Specification is available from the Port Stephens Council Website

**Virgin Excavated Natural Material (VENM)** means natural material (such as clay, gravel, sand, soil or rock fines):

- a. that has been excavated or quarried from areas that are not contaminated with manufactured chemicals, or with process residues, as a result of industrial, commercial, mining, or agricultural activities, and
  - b. that does not contain any sulfidic ores or soils or any other **waste**,
- and includes excavated natural material that meets such criteria for **virgin excavated natural material** as may be approved for the time being pursuant to an EPA Gazettal notice.

**Note:** **virgin excavated natural material** has the same meaning as in the *Protection of the Environment Operations Act 1997*

**vistas** means a view corridor to a distant view

**water balance** means an equation that can be used to describe the flow of water in and out of a system

**waterfront land** means:

- a. the bed of any river, together with any land lying between the bed of the river and a line drawn parallel to, and the prescribed distance inland of, the highest bank of the river, or
  - a1. the bed of any lake, together with any land lying between the bed of the lake and a line drawn parallel to, and the prescribed distance inland of, the shore of the lake, or

- a2. the bed of any estuary, together with any land lying between the bed of the estuary and a line drawn parallel to, and the prescribed distance inland of, the mean high water mark of the estuary, or
- b. if the regulations so provide, the bed of the coastal waters of the State, and any land lying between the shoreline of the coastal waters and a line drawn parallel to, and the prescribed distance inland of, the mean high water mark of the coastal waters,

where the prescribed distance is 40 metres or (if the regulations prescribe a lesser distance, either generally or in relation to a particular location or class of locations) that lesser distance. Land that falls into 2 or more of the categories referred to in paragraphs (a), (a1) and (a2) may be **waterfront land** by virtue of any of the paragraphs relevant to that land.

**Note:** **waterfront land** has the same meaning as in the *Water Management Act 2000*

**waste** includes:

- a. any substance (whether solid, liquid or gaseous) that is discharged, emitted or deposited in the environment in such volume, consistency or manner as to cause an alteration in the environment, or
- b. any discarded, rejected, unwanted, surplus or abandoned substance, or
- c. any otherwise discarded, rejected, unwanted, surplus or abandoned substance intended for sale or for recycling, processing, recovery or purification by a separate operation from that which produced the substance, or
- d. any substance prescribed by the regulations to be **waste**.

A substance is not precluded from being **waste** for the purpose of this Act merely because it is or may be processed, recycled, re-used or recovered

**Note:** **waste** has the same meaning as in the *Protection of the Environment Operations Act 1997*

**waste management plan** means a plan that details the amount, type and disposal of **waste** during demolition, construction and through the ongoing management of the facility

**waste storage and recycling area** means a designated area or a combination of designated areas upon the site of a building for the housing of approved containers to store all **waste** material (including recyclable material) likely to be generated by the buildings occupants

**water quality stripping targets** means the following water quality targets:

- a. Total nitrogen retention post-development load: 45%
- b. Total phosphorus retention post-development load: 60%
- c. Total suspended solids post-development load: 90%
- d. Gross pollutants post-development load: 90%

**Water Sensitive Urban Design (WSUD)** means a range of measures that are designed to avoid, or at least minimise, the environmental impacts of urbanisation in terms of the demand for water and the potential pollution threat to natural water bodies

**water sensitive urban design strategy** means a strategy developed to implement identified Water Sensitive Urban Design measures

**wetland** means a location identified as 'wetland' on the Wetlands Map under **Local Environmental Plan**

## E2 Acronyms

<b>AEP</b>	Annual Exceedance Probability
<b>AHD</b>	Australian Height Datum
<b>AHIMS</b>	Aboriginal Heritage Information Management System
<b>AHIP</b>	Aboriginal Heritage Impact Permit
<b>ANEF</b>	Australian Noise Exposure Forecast
<b>ANPA</b>	Aircraft Noise Planning Area
<b>APZ</b>	Asset Protection Zone
<b>ASS</b>	Acid Sulfate Soils
<b>BASIX</b>	Building and Sustainability Index
<b>BCA</b>	Building Code of Australia
<b>CPTED</b>	Crime Prevention through Environmental Design
<b>CRZ</b>	Core Riparian Zone
<b>DAF</b>	Development Assessment Framework
<b>DAREZ</b>	Defence or Airport Related Employment Zone
<b>dB(A)</b>	A-weight decibels
<b>DCP</b>	Development Control Plan
<b>DPI</b>	Department of Primary Industries (NSW)
<b>ENM</b>	Excavated Natural Material
<b>EP&amp;A Act</b>	<i>Environmental Planning and Assessment Act 1979</i>
<b>EPI</b>	Environmental Planning Instrument
<b>FFL</b>	Finished Floor Level
<b>FPL</b>	Flood Planning Level
<b>LEP</b>	Local Environmental Plan
<b>LLS</b>	Local Land Services
<b>MSD</b>	Minimum Sight Distance
<b>MUSIC</b>	Model for Urban Stormwater Improvement Conceptualisation
<b>NorBE</b>	Neutral or Beneficial Effect on Water Quality

<b>OEH</b>	Office of Environment and Heritage (NSW)
<b>OSMS</b>	On-site Sewage Management System
<b>PMF</b>	Probable Maximum Flood
<b>PSC</b>	Port Stephens Council
<b>PSDCP 2013</b>	Port Stephens Development Control Plan 2013 (superseded Plan)
<b>PSDCP 2014</b>	Port Stephens Development Control Plan 2014 (this Plan)
<b>RAAF</b>	Royal Australian Air Force
<b>RL</b>	Reduced Level
<b>SEE</b>	Statement of Environmental Effects
<b>SEPP</b>	State Environmental Planning Policy
<b>SIS</b>	Species Impact Statement
<b>SQIDs</b>	Stormwater Quality Improvement Devices
<b>SSSQM</b>	Small Scale Stormwater Water Quality Model
<b>TIA</b>	Traffic Impact Assessment
<b>TSC Act</b>	<i>Threatened Species Conservation Act 1995</i>
<b>VENM</b>	Virgin Excavated Natural Material
<b>VMP</b>	Vegetation Management Plan
<b>VPA</b>	Voluntary Planning Agreement
<b>WSUD</b>	Water Sensitive Urban Design
