The Australian Government Framework for a COVID-19 Safe Australia has been implemented and the NSW Government have issued a [Public Health Order](#) that defines current restrictions in response to the COVID-19 pandemic. This COVID-19 Safety Plan has been developed in line with the 3 Step Framework and the [National COVID-19 Safe Workplace Principles](#). To keep volunteers, workers and community members safe and limit the spread of COVID-19, hall committees are required to:

- utilise information to remind committee members and hall hirers of the risks of COVID-19 and the measures that are necessary to stop its spread.
- know current government physical distancing regulations.
- ensure the facility is regularly cleaned and disinfected.
- inform hirers they are required to comply with [NSW Health](#) guidelines.
- have [signs and posters](#) around to remind volunteers and hirers of the risks of COVID-19 and the measures that are necessary to stop its spread.

A COVID-19 Safety Plan approved by Council is required for each hall and community centre before it can be opened and used by the community. Council requires hall committees to:

1. Consider the requirements of hall hirers to amend and finalise a COVID-19 Safety Plan for your facility.
2. Use the questions and notes in this template to help with this.
3. Submit the plan to Council for approval.
4. Communicate the plan with committee members and hall hirers.
5. Review your plan regularly and make changes as necessary.
