

Artist impression: Birubi Point Aboriginal Place Tourism Interchange

Birubi Point Aboriginal Place Tourism Transport Interchange

The development of a new visitor interchange was identified as part of the Birubi Point Aboriginal Place Management Plan. As part of the initial works, we've managed the removal of a large amount of sand from the site to allow us to begin the main building works. Rather than moving the sand off-site, we've been working with neighbouring landowners including the Worimi Local Aboriginal Land Council to investigate options of retaining the sand onsite.

Working through this sand management process has impacted our project delivery schedule.

Ward Boundary Review

A Ward Boundary review was recently undertaken and went to Council at its ordinary meeting on Tuesday 11 July 2023. Learn more at portstephens.nsw.gov.au/public-exhibitions

Major Works Update

- **Yulong Amenities replacement, Medowie**
The early site works have commenced and the tender assessment for the major contract works is underway. Construction is scheduled to start in August 2023.
- **Lemon Tree Passage Roadworks**
The planning and design works are underway for Lemon Tree Passage Road (near Oyster Cove). The road safety improvements are scheduled to start in August 2023.

Save the date: Night at the Beach Saturday 2 September 2023

We're planning a new and exciting event at Robinson Reserve, Anna Bay. Keep your eye on our website and Facebook for more information in the near future.

Central Ward update

July 2023

July 2023
Tilligerry Place Plan workshops

July 2023
Aliceton Reserve Karuah new playground

September 2023
Night at the Beach Robinson Reserve

We're planning for the future of our places in a way that makes it easy for you to understand and get involved. The Medowie Place Plan was endorsed in April this year and we're currently engaging with the Tilligerry community to begin drafting their place plan.

What's the latest update with Smart Parking?

We're committed to safety and accessibility in Port Stephens through parking regulations and are currently investigating the roll out of the Smart Parking system to beach parking areas at Birubi and One Mile. Learn more at pscouncil.info/smartparking

What's planned next for Central Ward?

Anna Bay Smart Parking

Investigations and community engagement for the expansion of Smart Parking to other areas in Port Stephens will begin soon. We're looking at the Birubi Headland parking area including the bottom car park and Robinson Reserve carpark. Additionally, the One Mile Beach parking area will be improved and upgraded from a gravel to a sealed car park after summer 2023/2024. We value your input and will be seeking your opinions on the roll-out process, including any potential timing restrictions and suggestions for the allocation of funds raised from Smart Parking.

Learn more about Smart Parking at pscouncil.info/smartparking

Anna Bay Place Plan

The engagement and development of the Anna Bay Place Plan is currently on hold while we prepare some additional development studies, which are expected to be finalised in the next 12 months. Once developed and endorsed, the

Anna Bay Place Plan will replace the Anna Bay Strategy and Town Plan. We'll continue to have conversations with our community about the development studies and once completed, will revisit the Anna Bay Place Plan.

Lemon Tree Passage Town Centre

The new town works in Lemon Tree Passage have started! Located next to the Henderson Park Playground, you'll see changes as the construction is underway, which will include a 290m² paved open space as well as outdoor seating, planting and lighting. The new space will be used as a community event and meeting space.

Tilligerry Place Plan

We're about to embark on the development of the Tilligerry Place Plan. We'll be workshoping with the community what their vision is for their place and actions to achieve that vision.

These could include events and activities, projects and works, actions for community, land use changes and more.

We've received overwhelming interest from the community to be involved in the online and face to face workshops for the Tilligerry Place Plan happening this month.

Medowie Town Team

We've recently joined forces with Town Teams Movement, a non-profit company that enables local communities and governments to connect, organise and act to regenerate their neighbourhoods and to create better places.

We're the first Council in NSW to actively promote the Town Teams approach, and we're proud to be working with the local community to create vibrant places that support social wellbeing and enhance liveability.

A series of Town Team launch events were held at Medowie throughout May, with over

65 people attending the information sessions to discuss their ideas for community projects. Casual meetings are being held in the community to progress some of these ideas.

Find out more about how to get involved! Contact Dean Cracknell from Town Teams on 0468 381 745 or email dean@townteammovement.com

Aliceton Reserve and Memorial Park

We recently finalised the design of the new playground at Aliceton Reserve, Karuah, using the responses from our community engagement. The playground is schedule to be completed and ready for use by the end July.

The community feedback period on possible locations for short-term RV and caravan parking in Karuah has recently closed. We're now collating the results.
