PART B

PROPOSED DEVELOPMENT AND SITE PARTICULARS

Proposed development

Describe your proposal in detail, including details such as what the purpose of the signage is and what it will advertise, how and where the signage will be mounted, visual appearance and colour schemes, and the dimensions.

Subject site and adjoining properties

Describe the subject site including the total site area in m². Provide details of physical features such as slope, vegetation, existing services and existing structures. Also describe the current use and development on adjoining properties.

Site history

Detail the existing and historic uses of the site, including existing structures and activities.
Note: Where potentially contaminating activities have occurred, a Preliminary Site Investigation assessment should be provided in support of your application.

State Environmental Planning Policies (SEPPs)

List any State Environmental Planning Policies (SEPPs) applicable to your proposed development and provide details demonstrating compliance with the associated provisions of the relevant SEPP(s).

Note: The regularly applicable SEPP(s) have been included in the table below, amend where necessary.

Applicable SEPP	Comments
SEPP (Resilience and Hazards) 2021 Chapter 2 Coastal Management	
SEPP (Resilience and Hazards) 2021 Chapter 4 Remediation of land <u>Note:</u> Provide details of any potential contaminating activities that have previously occurred on the site.	
SEPP (Biodiversity and Conservation) 2021 <u>Note:</u> Provide details of the site's ecological values (koala feed trees, threatened species habitat, important habitat features, e.g. hollow bearing trees). If removal is required, an Ecological Impact Assessment is to be submitted with your application.

Note: SEPP (Industry and Employment) 2021 – Chapter 3 - Advertising and Signage applies to all Development Applications which include signage, the relevant assessment criteria for SEPP 64 is provided below.

SEPP (Industry and Employment) 2021	Comments
Chapter 3 Advertising and Signage	
Schedule 5 – Assessment Criteria	Comments
1. Character of the area Is the proposal consistent with the existing character and theme of advertising in the area?	
2. Special Areas Does the proposal detract from the visual amenity or visual quality of surrounding areas?	
3. Views and Vistas Does the proposal obscure important views? Does the signage respect viewing rights of other advertisers?	
4. Streetscape, setting or landscape Does the signage contribute to the visual landscape of the area, being proportionate in scale and form to the existing streetscape, setting or landscape?	
5. Site and building Is the proposal compatible with existing buildings on and surrounding the site, whilst respecting the existing important features of these buildings? Does the proposal show innovation and imagination in its relationship to the building or site?	
6. Associated devices Have any safety devices, platforms, lighting devices or logos been designed as an integral part of the signage or structure on which it is to be displayed?	

7. Illumination Would illumination result in unacceptable glare, affect safety of pedestrians, vehicles or aircraft, detract from the amenity of surrounding residential or accommodation? Is the illumination subject to a curfew, and can it be adjusted where necessary?	
8. Safety Would the proposal reduce safety for any public road, pedestrians or bicyclists? Or obscure sightlines from public areas?	

Port Stephens Local Environmental Plan

List the provisions of the Port Stephens Local Environmental Plan (LEP) applicable to your proposed development and provide details demonstrating compliance.

Note: The regularly applicable LEP provisions have been included in the table below, amend where necessary to ensure all relevant provisions applicable to the proposed development have been addressed.

Applicable LEP provision	Comments
2.1 Land use zones <u>Note:</u> Detailed assessment against the zone objectives is required.	
4.3 Height of buildings <u>Note:</u> If the structure is two storeys or greater, or has the potential to overshadow neighbouring properties, shadow diagrams will need to be submitted.
